He implicated in the bomb friends on West Pico. She was on. It is believed that the was at one time employed by him. Their statements were kept police, but all are being kept.

He is alleged to have set off the bomb. The police yesterday explained.

himself the person who touched the bombs under Mr. Lawler's nose and attempting to throw the blame

He instructed the writer to ask the bomber under Mr. Lawler's house and attempting to throw the blame on some one else, or the information given for a reward. He said that members of a quarrel between the members of the same gang. A tall, dark, heavy-set man, who said he was some crank who knew nothing about the true identity of the bomber, but only wants to cause the police to get worried, was also present and advanced yesterday.

Although a number of the detectives who are working on the case, said they were not sure that the latter will result in the early arrest of the persons responsible for the explosion. Chief Hoon said that he was not sure of the correctness of the information contained in the letter. Chief Hoon said that in his statement that the person had been arrested, it would lead to the arrest of all guilty persons they would bring in. He said that he would claim the reward that has been offered for the information.

"We are doing everything within our power to get the person who is using this case to a speedy arrest."

PLUMB PLAN IS FOR OWNERSHIP.**Railroad Workers Ask Nationalization of Carriers.****Profit-Sharing Basis Given as Solution for Wages.****Starts Campaign Claiming to Have 8,000,000 Voters.**

WASHINGTON, Aug. 4.—The fight of the railroad workers of the United States to force on Congress the acceptance of government ownership as a solution of the railroad problem is to begin at once and will be unremitting in its intensity. Leaders of the railroad brotherhoods and organized labor generally are convinced that their plan for the government to buy the railroad and nationalize them on a profit-sharing basis with the workers is the only equitable proposal that has been devised, and they are stirring up for a struggle with capitalism on the issue before Congress. Which promises to be more sensational than the fight for the Adamson eight-hour work for ten hours pay law in 1917.

The brotherhood leaders who held the watch on Congress over the Adamson law with a nationwide strike club dangling over its head are here again, and they served notice on the President Congress and the general public Saturday following introduction of the government ownership bill, known as the "Plumb plan" that their forces are stronger than ever and can be marshalled into action as a word of command.

STRIKE NOT WANTED.

The railroad leaders do not want to threaten a general railroad strike on this issue, they say. That is a strike which they do not believe will be necessary to use in this fight. They believe that the merits of their proposal to settle railroad difficulties on all sides, the ill of its capitalist system and the complaints of the workers will force Congress to pass their bill.

Glen E. Plumb, counsel for the "Plumb plan" league, which is organized to push the government ownership bill, has arrived in Washington and will appear Wednesday before the House Committee on Interstate and Foreign Commerce on behalf of the measure.

A. B. Garrison, who directed the fight for the Adamson bill, and who is vice-president of the league, is also scheduled to appear, but is not able to do so because of illness.

CLAIMS MILLIONS OF VOTES.

There are at least 6,000,000 men who know of the labor organizations, farm organizations and other associations in the United States.

Mr. Plumb said that he is supporting our plan for solution of the railroad question. I am convinced that there is a modest estimate. In fact, there are 8,000,000 who are in effect pledged to support it. We have behind this movement today more votes than any political party in this country has ever cast, but in this movement we are making no attempt to form a political party.

"Our fight is to be nonpolitical. Our proposal will appeal to the good sense of men in all parties."

Plumb was asked if there is truth in the charge made by the railroad operators that the brotherhoods are threatening to force the government to take over the heads of Congress.

"We are not thinking of a strike," he replied. "The strike is the weapon of last resort. We are confident that our plan in itself is strong enough and convincing enough without a strike and political party."

We seek to accomplish can be consummated without resort to force.

SOLUTION OF WAGE PROBLEM.

"This much is true, however, something must be done, and done soon, to better the living conditions of the railroad workers. If our plan is not accepted then the men must have an increase in wages. We believe our plan offers the means of solving the wage problem, and on this we rely for success."

"Our plan is one to establish a fundamental change in a situation which has been growing from bad to worse for many years. The difficulty with all other plans is that it is their object to increase the earnings of railroad securities. None of these plans is feasible now, because the railroads have overcapitalized the future to such an extent as to make it impossible to carry out."

"A more increase in wages will not relieve the situation at all. It necessarily would be followed by an increase in rates, which would increase the cost of living. Such a plan in this crisis is financially wrong. There is no use in pursuing a course which gets the country nowhere."

SITUATION IS MIXED UP.

What the President is going to do in the situation that has been created by the organized workers is a question which Congressional leaders are asking themselves tonight.

Congress had about given up the idea of attempting to grapple with the railroad situation, but when they had been led to believe that the President was entertaining no

WANTS TRIAL OF ALL WHO ABUSED SOLDIERS

NEW YORK, Aug. 4.—(Exclusive Dispatch.)—A man of rank and station every day is responsible for abuse of soldiers in army prison camps. He is brought to trial, according to the American Legion, the national organization of American veterans of the great war. This is the opinion of the discharged veterans expressed by an editorial in the "Weekly," the veterans' organ. "Investigation to the very heart of abuse of American soldiers in army prison camps must follow," the editorial says. "For every 'hard-boiled' soldier there is a responsible man, as we understand army organization. The question of whether the responsible man directly or indirectly abetted the abuse is immaterial, for if he did not, then there was a neglect of duty which amounts to a crime. The proper remedial measures amount to a condition of army and direct complicity."

RUIN MAY SUCCEED ISHII AS AMBASSADOR

WASHINGTON, Aug. 4.—(Exclusive Dispatch.)—The Japanese newspaper "Hochi" seems to be the preference of the count Ito, Japanese ambassador to the United States, to take the place of the late Mr. Ito, Japanese ambassador to the United States. The "Hochi" says: "It seems to be the preference of the count Ito to express his opinion on diplomatic questions as ambassador of the House of Peers. It is probable that the new Japanese ambassador to America will have to choose from among the Japanese who have taken a prominent part in the Peace Conference."

UNIONS WOULD OUST CAPITAL.

Demand Railways be Operated
by Public Ownership.

Tripartite Control is Urged in
"Labor's Bill."

Proposal to be Carried Before
Congress Tomorrow.

(Continued from First Page.)

present is the audible part in labor's bill providing that the public take over the railroads and establish a tripartite control between the public, the railway operating management and the employees.

It marks the step by which organized labor passes from demands for wage increases to demands that the system of the new industry be overhauled. Hitherto, during the successive wage negotiations and arbitration awards, we have called for provisional control in industry, of questions arising out of differences in wages, hours and conditions of labor.

"What wage increases have been granted during the past few years resulted only in immediately being followed by more than proportionate increases in the cost of living. Each rise in wages has turned out to mean only temporary relief for the affected workers. When the increases have gone around the circle, labor as producer loses the advantage of the new wage through the additional cost it pays as consumer. Moreover, through compounded profits taken on the wage increases each cycle becomes an upward spiral of costs which the consumer public vainly tries to control.

As the major part of the consuming public, labor is entitled to representation on the directorate of the public railroads. As a producer of capital, it is entitled to representation on the directorate of the railroads. To capital, which is the fruit of yesterday's labor, we now propose to discharge every just obligation. We demand that the owners of capital, who represent only financial interest as distinguished from operating brains and energy, be returned from management, receiving government bonds with a fixed interest return for every honest dollar that they have invested in the railway industry. We ask that the railroads of the United States be vested in the public; that those actually engaged in conducting that industry, not from Wall Street, but from the railroad offices and yards and out on the railroad lines, shall take charge of this service for the public.

These represent all the brains,

skill and energy that is in the business. They are entitled to that measure of control which is equal to their ability and their responsibility for operating the transportation properties. Then, and then only, will the service be primarily for the public, not primarily for profits to speculators and inflators of capital. As a means for accomplishing this end, we ask that a lease be granted to a corporation created not for profit, but for public service. We ask that this corporation be controlled in its management by an equal representation of the three fundamental interests upon which the investment required for the conduct of the industry and that return which induces it, by investing, to enter the public service.

SHARE PROFITS EQUALLY.
"The public as consumers and the operating managers and wage-earners as producers having joined in that guarantee, will then share equally all earnings in excess of the amounts required to meet the guarantee."

"This is provided by granting the wage-earners and management an equal share in the earnings which, through their perfected organizations, can make and by securing to the public, but also as consumers."

ASKS OVERHAULING.
"It marks the step by which organized labor passes from demands for wage increases to demands that the system of the new industry be overhauled. Hitherto, during the successive wage negotiations and arbitration awards, we have called for provisional control in industry, of questions arising out of differences in wages, hours and conditions of labor."

"What wage increases have been granted during the past few years resulted only in immediately being followed by more than proportionate increases in the cost of living. Each rise in wages has turned out to mean only temporary relief for the affected workers. When the increases have gone around the circle, labor as producer loses the advantage of the new wage through the additional cost it pays as consumer. Moreover, through compounded profits taken on the wage increases each cycle becomes an upward spiral of costs which the consumer public vainly tries to control."

As the major part of the consuming public, labor is entitled to representation on the directorate of the public railroads. These represent all the brains,

FRUIT SHIPMENTS GO ABOVE NORMAL.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Aug. 3.—

Carloads of perishable freight loaded in California for the East since January 1 via all lines (Southern Pacific, Salt Lake Route, Western Pacific and Santa Fe) were as follows:

January, 7708; February, 7881; March, 9359; April, 8601; May, 9477; June, 14,663; July (to 25th only), 12,703. Total, 76,197.

This volume of business is approximately 25 per cent. above normal. The entire movement was taken care of without any car shortage and without any ice shortage.

DEMANDS RETROACTIVE.

The brotherhood demands are retroactive to January 1, 1919, and include a forty-four hour week, overtime and 20 cents an hour increase in wages. The Railroad Administration has refused to accept the demands and to make a definite reply immediately.

OIL COMPANY TO PAY ROYALTIES OF \$300,000.

(BY A. P. DAY WIRE.)
SAN FRANCISCO, Aug. 4.—The Standard Oil Company of Kern county was held responsible for patent infringements against the Petroleum Rectifying Company of California and was ordered to account for royalties alleged to approximate \$300,000, in a decision by the United States Circuit Court of Appeals here today.

The decision reversed the judgment of the lower court. Other suits to approximate \$1,000,000 in royalties demands from other companies were pending.

HOOVER SAYS COAL NEEDS EXCEED FOOD.

(BY CABLE AND ASSOCIATED PRESS.)
PARIS, Aug. 4.—Dispatches from London quoting Herbert Hoover as having informed the supreme economic council that "the production of foodstuffs in Europe has fallen to a level dangerously below that of pre-war years" were promptly repeated and amplified by Mr. Hoover in Paris today.

"I used the word 'coal,' not 'food,' said Mr. Hoover. "The situation is serious, but there is enough food grown in the world to feed the world if we can transport it properly. Collective buying and collective distribution probably will mitigate the foodstuff shortage to a great degree."

"But the coal situation is the world's greatest problem today, and the remedy for winter's coal shortage is not in sight."

In view of a feared speculation in the future of stocks, Mr. Hoover said that the American news agencies to carry the correction.

COLORADO TO START FOOD PRICE INQUIRY.

(BY A. P. NIGHT WIRE.)
DENVER, Aug. 4.—Prices received by producers as well as retailers of food will be investigated in Colorado, if recommendations to be made tomorrow to Gov. Shoup by Atty. Gen. Victor E. Keyes are carried out.

"Economic conditions generally and the greed of many producers are responsible for the increase in prices," the Attorney-General said. He will ask Gov. Shoup to appoint a committee to investigate the situation.

Whether the city of Denver will sell food at cost prices will be determined at a meeting of city managers tomorrow.

ALASKA INDIANS Practice Witchcraft.

(BY A. P. CORRESPONDENCE.)
JUNEAU (Alaska), June 11.—Witchcraft, it appears, still is practiced by some tribes of Alaska Indians. The latest example came to light in the arrest of the heads of the tribe of Bear Lake Indians, who are said to be below the average native in intelligence and physical endowment. Cause for the arrest, it is learned, was the action of the Indians in killing a member of the tribe, to a tree by the hair of her head and with her hands tied behind her back.

A small boy was turned loose to wander in the timber. When rescued a few days later the little fellow's face was covered with scratches and bites and the girl in a serious condition. The children were taken to Telegraph Creek to be cared for and the men of the tribe responsible for the cruelties arrested.

SENTENCED TO McNeill Island Term.

(BY A. P. NIGHT WIRE.)
PORTLAND (Or.) Aug. 4.—Convicted in the Federal court on a charge of kidnapping to defraud, Edward F. Lee of Albany was sentenced today by Judge Volger to eighteen months in the Federal penitentiary at McNeill Island for "remedies" which he sent through the mails, according to evidence produced at the trial. The "remedies" were declared useless.

Gets Fine for Eggless Egg Noodles.

(BY A. P. NIGHT WIRE.)
PORTLAND (Or.) Aug. 4.—George H. Lehmann, manufacturer of egg noodles, drew a fine of \$48 in the Federal court today when it was proved that the noodles contained very little egg. Lehmann was convicted on charges of selling adulterated food. He claimed that he was conforming with the act insofar as he understood it.

In Fringe of Chamberlain's Colic and Diarrhoea Remedy.

"I cannot speak too highly in praise of Chamberlain's Colic and Diarrhoea Remedy," writes Carrie Fuesner, Zanesville, O. "It has been used by myself and husband for cholera morbus and other forms of bowel trouble for the past fifteen years. It never fails to give relief."—Advertisement.

WANTON DESTRUCTION OF AIRCRAFT DENIED.

FORMER CHIEF OF SERVICE
ABROAD SAYS NONE BURNED NEEDLESSLY.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Aug. 4.—Denial that any aircraft of the A.E.F. was wantonly destroyed was made today by Col. Mason M. Patrick, former chief of air service abroad, appearing before a House investigating committee.

"That any planes were burned needlessly or wastefully is incorrect," declared Col. Patrick. "None of them was actually burned."

Destruction of the machines followed effort to sell them, which failed, and the result was a junk of parts. None was offered for sale or destroyed, Col. Patrick said, until after an inventory had been made of the machines.

Col. Patrick said that when the armistice was signed the United States had about one-fourth the number of planes on the front that should have been there, considering the size of the front-line army. He gave 740 planes as the number of machines in the front line, of which 213 were built in this country.

Falling down in the training of new aviators rather than inability to get planes caused the insufficient force, Col. Patrick said.

LAW JUSTIFIES WOMAN'S CLAIM.

Legalizes Life Spent "Without Benefit of Clergy."

After Thirty Years Suit Wins Her Name and Fortune.

Story of Drab, Dreary Life is Told on Witness Stand.

(SPECIAL CORRESPONDENCE.)
SHERMAN (Tex.) July 25.—It was a story of a drab, dreary life, full of hardships that few women have had withstood, that Mrs. Mary Elizabeth Green Bobbitt, common law wife of I. R. Bobbitt, told the District Court here today. She was suing Bobbitt for divorce and for one-half of his estate, valued at \$424,100. The jury, after hearing the testimony and evidence in the case, brought in a verdict that the woman was the common law wife of Bobbitt, having lived with him for more than thirty years and that she was entitled to one-half of his estate. She was granted a divorce from the defendant.

Bobbitt is one of the leading business men of North Texas. He has large investments in many industries. He was married to Mrs. Mary Elizabeth Green Bobbitt, common law wife of I. R. Bobbitt, in 1917, that Bobbitt, according to the testimony of his common law wife, told her to get out of his life. She was living at that time at Natchez, Miss., with a son that had been born to her and Bobbitt in 1915.

On February 2, 1918, Bobbitt was married to Mrs. Rowena Smith Coover of Sherman, daughter of R. E. Smith, a wealthy citizen of this county. A son was born to them a few months ago.

According to the story told by the first Mrs. Bobbitt she eloped with the man with whom she lived as wife for so many years on May 25, 1916, and lived with him until he was killed by her father near Sherman. Bobbitt took her to Louisiana, where for many years he was a levee contractor. She lived with him in the camps in the swamps, cooking for the outfit. Her story, dramatically told, in part, as follows:

"I lived with Bobbitt from the time I eloped with him until he left me in Natchez. And I worked, if I could, to get out of what was a life in a Mississippi levee camp. I couldn't believe any woman in the world could do the work I did. But I seemed to get far from my home. I lived with Bobbitt for many years. He carried a bottle of quinine to the field with him and used to eat it off his knife blade. That made him deaf."

"Before we started for Louisiana in 1914, I raised a cotton crop. Picked three bales and 700 pounds myself. Bobbitt sold the cotton and of foodstuffs in Europe has fallen to a level dangerously below that of pre-war years" were promptly repeated and amplified by Mr. Hoover in Paris today.

"I used the word 'coal,' not 'food,' said Mr. Hoover. "The situation is serious, but there is enough food grown in the world to feed the world if we can transport it properly. Collective buying and collective distribution probably will mitigate the foodstuff shortage to a great degree."

"But the coal situation is the world's greatest problem today, and the remedy for winter's coal shortage is not in sight."

KRUPP WORKS PASS TO PEACE PURPOSE.

(BY CABLE-REUTERS DISPATCH.)
BERLIN, Aug. 4.—Work-

men are beginning to convert the big testing grounds of the Krupp Works to the purposes of peace, as required by the treaty of Versailles.

The big range at Essen, where the immense guns roared for years for the benefit of the army and navy experts, soon will be experimental grounds for tractors and other agricultural machines.

The range at Tangeasette will pass entirely from the hands of the Krupp management as soon as it is cleaned up. Although the range at Neppen must be held because of long leases, it probably will be idle.

FOR U.S.N.R. OFFICERS.

Naval Reserve Leaders, Here Form Section of National Order.

It was stated at the meeting last night of the Executive Committee of the Los Angeles section of the United States Naval Reserve Officers' Association in the office of the Mortgage Guarantee Company, 626 South Spring street, that good headway was being made in organizing Lieut. Adams, Hennesberger and Ross were appointed a committee on recommendations; Lieut. Lowell and Clark and Ewing Garland on arrangement and organization, and Assistant Paymaster Hogan, Barns, Sisson and Blankenhorn on consultation and bylaws.

As soon as the local section is fairly well started application will be made for affiliation with the national organization, which will take in some 25,000 officers. Another meeting of the local section will be held a week from Friday, the time and place to be announced later.

RAIL RATE BILL IS REPORTED FAVORABLY.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Aug. 4.—The Cummins bill to restore the rate-making powers of the Interstate Commerce Commission during the remaining period of Federal control was reported out today by the House Interstate Commerce Committee by a vote of 6 to 5. The measure, which already has passed the Senate, was amended by the committee in one important respect, to give it would confer on State commissions the same authority over intra-state rates that the Federal body now has over interstate rates.

Chairman Enoch said that the widespread demand of carriers that the Interstate Commerce Commission be given its former right to regulate through authority to approve and suspend those initiated by carrier, was one of the reasons for the largely to the present uncertainty over the whole question of freight tariffs.

MOVIE FILM COMES FROM MEAT PACKERS.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Aug. 3.—It is impossible to go to the movies and forget how much it costs to live. The movies themselves, it became known yesterday at the Federal Trade Commission, are dependent on the packers. Federal Trade Commission investigators found that the film used for motion pictures and phonograph discs as well as compressed largely of by-products of the meat-packing industry.

CHILDREN ORPHANED BY FLU PENSIONED.

(BY A. P. CORRESPONDENCE.)
FAIRBANKS (Alaska), June 25.—Mrs. Thomas Riggs, wife of Gov. Riggs of Alaska, and other women of Juneau have begun a movement to raise \$5000 to assist in providing for the welfare of native children on Seward Peninsula left orphans by the ravages of the influenza epidemic of last winter. The movement contemplates erection of a home for the orphans on a site at a hot spring about fifty miles from Nome. The women propose to turn over the administering of the home to Bishop Crimmon.

Additional relief of the orphans is provided by the Federal government, which allows \$10 for each child per month.

Legion Meet Deferred for Roosevelt.

(BY A. P. NIGHT WIRE.)
PORTLAND (Or.) Aug. 4.—Dates for the first annual Oregon State convention of the American Legion have been advanced to September 17 and 18, so that Theodore Roosevelt may preside at the opening ceremonies. This announcement was made today by Eugene E. Leonard, manager of the State speakers' bureau for the legion.

About Ice

A DRIVER on taking out his wagon or truck drives on to the scales and weighs it. He then loads it with ice and again weighs. He then drives his route, selling to his customers in varying amounts, cutting his 300-pound cakes into small pieces. After he has sold his first load, he secures another one from a supply house, or, possibly, from a supply wagon. The cakes secured may weigh anywhere from 200 to 300 pounds, depending on the length of time they have been in the house. It is the custom of The Ice Distributing Company to call them 270 pounds, for there is no way of weighing them.

After finishing his route, the driver returns to the scales and weighs what ice he has left. He then reports to his boss the amount of ice he has sold. The difference between his reported sales and the amount of ice he has left is his shrinkage or melage. The shrinkage varies from 2 to 10 per cent. The drivers do not get paid for their shrinkage, and it is no excuse for short weighing a customer.

Dishonest drivers have a habit of boosting their shrinkage and selling it for their own benefit. On the count the companies must watch the shrinkage very closely, and if they are sure the drivers are honest they will not

editor of The Times, who presided, extolled the fine service rendered by the men and declared that no finer exhibition of courage and self-sacrifice was to be found in the entire army record.

"Every Times man did his duty," he said. "Every one was proud to say, measured up to the full stature of manhood. Their service was an inspiration to all of who were forced to remain at home."

Mr. Chandler also spoke in praise of the men. "It is a source of greatest satisfaction to have them back," he said, "and to think moreover that not one of them lost his life."

He announced that in accordance with arrangements made by Gen. Harrison Gray Otis before his death and unanimously approved by the directors of The Times, a bonus of one month's pay was given to every Times employee who entered the service, whether enlisted or drafted. Each man was guaranteed his position upon his return from the service upon application at an increase in pay of not less than 10 per cent. The following insurance was kept in force by The Times: in case of death, \$400; for severe wounds,

[illegible]

Mr. Bell held that the present method of determining when beer is intoxicating is by taking the ruling of the Collector of Internal Revenue, thus giving him legislative powers. He also held that to be beer the beverage must be intoxicating when taken in moderate quantities against the defendant should so allege. This point, he said, was upheld by Federal Judge Sawtelle, sitting in San Francisco. He pointed out that out of eleven cases decided by the Supreme Court, eight held that 2.75 per cent. beer is not intoxicating. One decision was the other way.

At the time the official board of Trinity voted to request the trustees to purchase the building, the trustees were adopted requesting Dr. Seelman to continue his pastorate. Then the trustees voted to request Dr. Seelman, and Dr. Seelman expressed his willingness to remain in Los Angeles. The church building is located on First and Second streets, in 1872, during the pastorate of Rev. M. Campbell. In 1884 this building was destroyed by fire. The church was then located between Fifth and Sixth streets. Several years later the church was moved to its present location between Grand and Grand avenue, where it remained until the church building was destroyed by fire. The church was then moved to its present location, the Trinity Auditorium, completed in August, 1914.

Dr. Seelman was pastor of Los Angeles in 1912, and is just completing his sixth year as pastor of Trinity. He is a member of the Southern California State Church Federation.

"Los Angeles' One Price Piano House."

The People and Their Troubles

DOROTHY DIX TALKS

Be Honest with Yourself

BY DOROTHY DIX.

There is an old saw to the effect that there are two people to whom we should never lie, and these are our lawyer and our doctor.

There is a third party to whom it is even more important that we should always speak the truth, and that is ourselves. Yet there is no other individual on earth to whom we are so little candid and honest.

Most of us spend the time from the cradle to the grave in deceiving ourselves, in camouflaging our motives and intentions so that we will not be able to detect them with our own eyes, and in pretending, as children do in play, that we are some noble hero, or persecuted martyr, until we come to believe at last in our own make-believe.

We are like the traditional confidence man who was such an artist in his calling, and so persuasive and convincing that he sold himself a gold brick.

It is only the most heroic of us who have the courage to set down in cold blood the truth about ourselves, and to strip the frills and furbelows from our daily life.

We look upon the mean and sordid thing that we have made of it.

Yet we might as well ourselves; we might save our money, our ambitions, our love, our happiness if only we would be honest and candid with ourselves.

Look at the way we lie to ourselves about our own abilities. Think of the hundreds of men and women who have known who have deceived themselves into believing that a poor, feeble little fellow of talent was a great flashing star of light.

What a pathetic host of them each one of us can recall!

A girl with a sweet little canary bird voice who impoverished her family, and wasted her youth, taking lessons from extortional teachers, while she hugged to her breast the sweet lie that she would be a grand opera singer, and refused to recognize the limitations of her own voice as she would that of another.

A man with some idea of form and color, but with no power or originality, no inspiration, who dabbled away from youth to age with paints, gouges and brushes, while he hugged to his breast the sweet lie that he was a second Whistler, yet never achieving anything but the veriest potboilers.

Men and women telling, against their starving, shabby, harassed by debt and bill collectors, refusing to accept the verdict of the editors and the managers who send back their books, and poems, and plays to their families, and bolstering up their false faith in their abilities by lying to themselves about magazine editors and theatrical producers being in a league against their talent.

One could weep tears of blood over these pitiful self-imposed who might be happy and prosperous and

only knows. We would probably have to behave ourselves and do our part in life. Thank goodness, no such calamity is likely to befall us! Our nerves, like the poor, are always with us and they are an ever-present help in times of trouble.

Let us once persuade ourselves that we are delicate and we are equipped to ride roughshod over our families forever after, without giving them a chance to protest against our greediness and selfishness. If there were any tonic of honesty with which you could dose the sick and make them tell themselves the honest-to-goodness truth for five minutes you could cure about ninety per cent of the ailments of the invalids as by a miracle.

If we could only be honest with ourselves! But perhaps none of us could know the truth about ourselves and survive.

QUESTIONS ANSWERED

Q: How many drafted men were in the American army? H. R. W.

A: There were 2,800,000 drafted men in the army out of 4,000,000. The War Department states that the drafted men were in every respect as good soldiers as the volunteers.

Q: What is the so-called finger lime? L. H. D.

A: This is a lime native to Australia. It is called finger lime because of its shape. The scientists of the Department of Agriculture have of late years introduced this fruit into the United States and it is now being grown here but not in commercial quantities.

Q: I planted a seed of rare fruit and the little tree is growing nicely. It will probably take it eight or ten years to bear fruit normally. Is there any way I can get fruit from it in a shorter time? E. F.

A: Yes. This tree might be grafted on a kindred plant that is already well rooted and vigorous. The top of that plant could then be cut off so all the vigor of the older tree would go through the grafted sprout. It might be possible thus to get fruit in two years.

Q: When was the first counterfeit greenback made in the United States? E. Y. R.

A: The first counterfeit greenback detected in the United States was a \$10 bill, and was made in 1862. The forgers were members of the notorious Johnson family who had their headquarters at Lawrence, Ind. Greenbacks in those days were unfamiliar and therefore the forgers escaped immediate detection.

Q: The Council of National Defense still in existence? M. V. S.

A: Congress has appropriated for the continuance of the Council of National Defense and it will be in existence for at least another year. It will continue as a liaison between industry and the government through the period of readjustment.

Q: Is it true that baseball is not played in the British Isles? W. M. R.

A: Baseball was practically unknown in the British Isles before

the war. The American Army introduced it to a degree, but it still played to no great extent.

Q: What proportion of the men in the army during the recent war were National Guardsmen? T. H. C.

A: Out of every hundred men in the army ten were National Guardsmen, thirteen were regulars, and seventy-seven came in through the National Army.

Q: From what are pearl buttons made? M. H. R.

A: These buttons are made from clam shells. Tapes found in the upper Mississippi are the best in the world for this purpose and

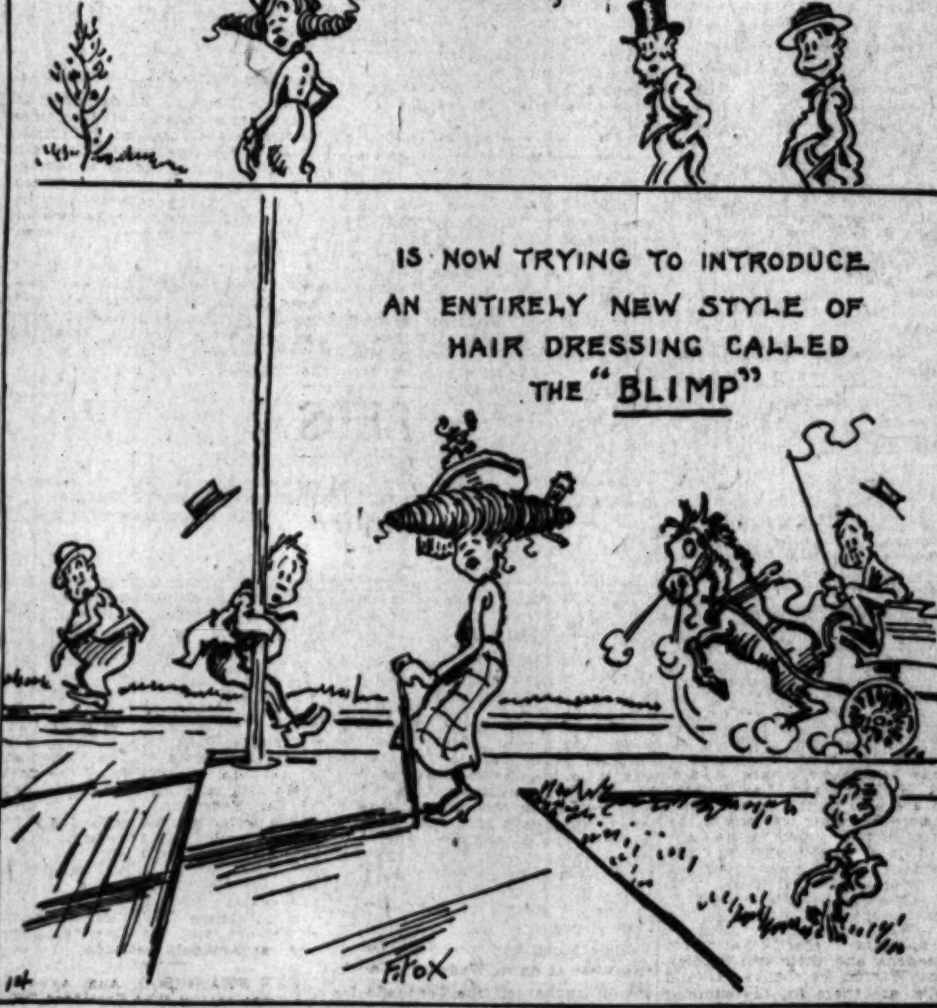

more buttons are produced on the upper Mississippi and its tributaries than in all the rest of the world combined.

Sister Clara

MYERS ADMITS HITTING WIFE.

Inform Court Why He Gave Woman a Black Eye.

Says She First Cloned Him, Tore Off Nightgown.

Cattleman's Mate is Denied Alimony Pending Trial.

Mrs. Iona Myers attended Judge McCormick's court yesterday with a patch over one eye. The patch concealed a black eye given her by her husband, Charles G. Myers, a well-to-do stockman. Mrs. Myers said he punched her during a quarrel over her request to adopt a baby. She demanded alimony pending the trial of her suit for divorce.

The story of how the black eye was given was told in court. Mr. Myers minced no words in telling it. He said his wife insisted upon sleeping on the bathroom floor. He objected. She tore off his nightshirt and clawed and scratched him. Then she got a half-Nelson on a part of his body.

"I said to her if she did not let go I would give her a crack. She held on for dear life, and I hit her in the eye. I hit hard," he testified.

Judge McCormick denied Mrs. Myers alimony. Next Thursday Mr. Myers will be tried in the University Police Court for striking his wife. Mr. Myers is represented by Attorneys Keetch and Bull.

FOR AUTO CAMP SITE.

Park Commission Submits Its Estimates to the Council.

Impetus was given the project to provide a first-class free automobile camping ground just off Casanova street, in Elysian Park, yesterday, when the Park Commission submitted its estimates and plans for the work required to the City Council. These were sent to the Council's Finance Committee for action.

The proposed outlay calls for an expenditure of \$582,500. It includes grading, boundary fences, lavatories, water heater, furnace, shower baths and toilets, slopinks, sewer connections and water system, and provision has to be made for a caretaker at \$2.25 per day.

The location is considered an ideal one, as it is in a grove of large eucalyptus and pepper trees, is easy of access from an improved street and close to the city line, and only a short walk from the improved sections of the park.

JAMES W. HACKETT

of New York is now here at work making his estimate for the proposed site.

James W. Hackett is a well-known architect and engineer.

He is a member of the American Institute of Architects.

He is also a member of the New York State Society of Architects.

He is a member of the American Society of Civil Engineers.

He is a member of the New York State Society of Civil Engineers.

He is a member of the American Society of Mechanical Engineers.

He is a member of the New York State Society of Mechanical Engineers.

He is a member of the American Society of Heating and Ventilating Engineers.

Don't Be Deceived When You Buy Linoleum

When you go into a store to buy linoleum, make sure you get it, and not a felt paper product that closely resembles linoleum and which is frequently sold under the name of "Linoleum," "Felt Base Linoleum," "Enamelled Linoleum," "New Process Linoleum," etc. The Federal Trade Commission has decided that such felt paper floor coverings are not linoleum, and that their sale under the name, "Linoleum," deceives and misleads the public, and hence is a violation of the Act of Congress approved September 26, 1914.

The Commission finds that the word, "linoleum," has a definite meaning, and may only properly be used to describe a floor covering composed of oxidized oil and gums intimately mixed with ground cork or wood flour, pressed on a suitable fabric back. The Commission further finds that floor coverings made of felt paper saturated with asphalt, with a pattern painted upon the surface, are not linoleum, and must not be described, advertised, or sold as linoleum.

One manufacturer of felt paper floor coverings has been ordered by the Commission to stop using the word, "linoleum," in connection with his product and to discontinue its use in the name of his company until such time as he may manufacture linoleum.

Linoleum enjoys an enviable reputation as a tough, wear-resisting and sanitary floor covering. There are three easy ways to distinguish linoleum from painted felt paper floor coverings:

1. Linoleum has a burlap back.
2. Linoleum does not tear easily.
3. The edge of felt paper floor coverings is always black.

The public is invited to report any violation of the Commission's ruling, on the part of any store, to the Federal Trade Commission, Washington, D. C., or to any of the undersigned manufacturers of linoleum.

SOCIETY.

By VIRGINIA WOODS.

to this our many visitors. The stands at Long Beach, Venice, Park and Santa Monica have more select fruit than any other place in the city. It is to be hoped that something will be done to stop this evil.

RICHARD HERRING.

Let "Em Have.

Editor of The Times: It is generally conceded that the world may be able to wobble under its age old burdens of international crime and brutality for a few more decades, but the League of Nations is surely needed to stabilize the situation, all the hearings, keep the right of way and open the world under the united command of Amity along the straight course of progress towards civilization.

This great procession now only waiting for a license to proceed, the Senate refuses to give a view to accelerate the "may I not" suggest a tentative action of this distressing difficulty.

By concerted effort of newsmen and public speakers it may be shown that President Wilson's well-known idealistic humanitarianism had carried him so far as to permit the Senate to delay the ratification of the League of Nations.

Barbara and the Hotel Bel-Aire are proving a delightful surprise for Los Angeles residents and their families. The dancing in the palm court is the grill each evening. The barbecue riding and the ocean each day. The hotel has a large and comfortable dining room and a large and comfortable lounge.

Mr. and Mrs. Harold Bryner of Pasadena were hosts. Miss Barbara Scoville of Pasadena and Shirley and Clyde S. Payne of Los Angeles were guests.

LAXATIVE
for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

CHAMBERLAIN'S TABLETS

THE BEST THAT THE WORLD KNOWS

**On Canning
On Drying
On Preserving
On Salting
On Storing**

Fruits and Vegetables

The Department of Agriculture has compiled this information and offers it to you right now in the season is at its height. Which of its books do you want?

"Home Canning by the Cold Pack Method" is intended for the Northern and Western States. It tells also how to can without sugar, and how to can soups, pie filling meats, fried chicken, and many other foods.

"Home Canning of Fruits and Vegetables" tells how to can in the South but bears equally as well on preserves, jellies, jams, fruit marmalades.

"Farm and Home Drying of Fruits and Vegetables" tells how to keep peaches, apples, pears, potatoes, turnips, cauliflower, spinach, and many other vegetables, by taking the water out of them. It is a revolutionary method. It gets results.

"Preservation of Vegetables by Fermentation and Salting" tells how to treat beans, corn, cucumbers, as sauerkraut is prepared.

"Home Storage of Vegetables" shows the proper way to build a cellar for them and how to keep them away to keep.

These Books Positively Cannot Be Obtained from the Los Angeles Office of The Times.

Check the bulletin on this list which fits your needs, write your name and address plainly, and enclose two cents in stamps for return postage if you want one bulletin, or five cents if you want more. Mail to The Los Angeles Times Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Miss Julia Hayward, who, with her house guest, Miss Catherine Warman, and Miss Louise Forre, is at Catalina.

Angels were among the other guests. Miss Amy Buch has just returned, having been joined over the week-end by her mother, Mrs. Albert Hamilton Buch and her brother, Hays Buch. Miss Buch is expecting her fiancé, Lieut. Van Buren Jarvis, shortly.

Baron and Baroness Alfred de Ropp, Harold de Ropp and the baroness' mother, Mrs. E. S. Morton, are at the Belvedere, having gone up Friday, in anticipation of the marriage of Harold de Ropp and Miss Margaret Trimble on Wednesday at noon. This wedding is to be one of the most brilliant of events. Miss Trimble, who is just recovering from a serious illness, is being feted daily.

Mrs. J. M. Carson and her daughter, Miss Valerie Carson, and her son, Earl Carson, motored up on Saturday to join Miss Gladys Carson and her husband, Mr. Carson, who has been there several weeks. Mrs. H. H. Cotton and Miss Victoria Cotton are also in the party. Miss Margaret Brunswig was one of the attractive young figures on the ball-room floor Saturday evening; she having gone up in time for the show with her house guest, Miss Rosario Moran of Menlo Park. The two girls were members of a very pretty dinner party that evening.

Mr. and Mrs. Frederick Fairbanks of Pasadena and her daughter, Miss Margaret Brunswig, are at Catalina. Mr. and Mrs. J. M. Carson and her daughter, Miss Valerie Carson, and her son, Earl Carson, motored up on Saturday to join Miss Gladys Carson and her husband, Mr. Carson, who has been there several weeks. Mrs. H. H. Cotton and Miss Victoria Cotton are also in the party. Miss Margaret Brunswig was one of the attractive young figures on the ball-room floor Saturday evening; she having gone up in time for the show with her house guest, Miss Rosario Moran of Menlo Park. The two girls were members of a very pretty dinner party that evening.

Mrs. J. M. Schneider and Miss Margaret and Walter and Carol Schneider motored up for the week-end. Miss Margaret remaining over as a guest of Miss Florence Johnson. Mrs. Ada Reis Johnson of Pasadena is visiting friends there and Mr. and Mrs. Garfield E. and their daughter, and Mrs. Bennett and her daughter, Miss Fair Bennett, are having a gay time at the Belvedere. Miss Margaret Orena is there also.

At Catalina. Miss Julia Hayward and her house guest, Miss Catherine Warman of Scranton, for whom she entertained at a swimming party and breakfast Friday, are over at Catalina, guests of Miss Louise Forre, who is there with her father, Philip Forre and her brother, Victor Forre. Mrs. B. V. Collins of Shatto place and her daughter, Miss Doris Collins and Victor Collins, Jr., are at Catalina, where they have taken a cottage. Mrs. Collins is chaperoning a group of Miss Doris's girl friends, the party occupying five cottages. Mr. Collins will join his family over the week-end.

Engagement Told. Mr. and Mrs. Gerson Goldsmith of 114 South Hobart boulevard announced the engagement of their daughter, Miss Ruth Goldsmith to Dr. Arthur S. Rosenfeld of Portland, Or.

Rainbow Wedding. Before an altar of white asters and ferns Miss Corinne Lovejoy and Dr. J. Lynn Trommenger, last evening pledged their troth, at a ceremony performed by Dr. John Snape of the Hollywood Baptist Church, at the home of the bride's parents, Mr. and Mrs. George L. Lovejoy of 1203 North Hobart boulevard.

It was a rainbow wedding, the gowns of the brides in attendance being in green, lavender and pink. Miss Miss Lovejoy was her sister's maid of honor, and was crowned in pink georgette, adorned with rosebuds in the rainbow colors. She carried an arm sheath of pink roses. The frocks of the other girls were of orange. Miss Onnoles Greason, sister of the bride, and Miss Ruth Snodgrass were in green. Miss Mildred Eysenbrod and Miss Reen Herbert were in lavender, and Miss Elizabeth Snyder and Mrs. Frederick Waring were crowned in pink. Each of them carried French bouquets.

The bride was crowned in white satin, made with a long court train and trimmed in real lace and embroidered in pearls. Her long veil was crowned with a cap of lace and orange blossoms. She carried a shower bouquet of white orchids, bride roses and sweet peas. The bridesmaids wore white dresses. The service was read at 8 o'clock in the large drawing-room, where a mass of white asters and ferns, the same floral motif being employed in the reception hall. The dining-room and living-room were adorned in palms, ferns and Cecile Brunner roses. One hundred guests witnessed the event and remained for the reception and buffet supper.

Personal. Mr. and Mrs. Henry C. Hicks of Kenosha, Wis., and Nels and Mrs. Dallas are visiting here and are located at the Kensington Apartments.

HOW YEGGMEN "PLY TRADE."

Dramatic Demonstration is Given at Harris Trial.

Detective Uses the Tools of the Alleged Burglar.

Soil Near Artesia Bank, Pepper, Footprints Clews.

Visual demonstration of the methods used by yeggmens in opening safes and strong boxes was given yesterday by Detective Frank E. McCabe of Denver in the trial of Lewis B. Harris, alleged looter of the First National Bank of Artesia of more than \$21,000 in valuables.

The detective, who has had much experience in tracking criminals, showed the jury in Judge Taft's court how each of a number of tools on exhibit was used. He at previous testimony testified that he had obtained the tools from a checking stand at the Terminal Station at Denver after obtaining the check from the apartments of Harris and Frances Kennedy Harris.

The similarity of mud spots found on shoes and a pair of trousers of Harris and mud taken from the vicinity of the bank at Artesia also came up for discussion. G. L. Cheney, 202 E. 12th street, previously testified that he had obtained the tools from a checking stand at the Terminal Station at Denver after obtaining the check from the apartments of Harris and Frances Kennedy Harris.

Deputy Sheriff Anderson testified regarding the finding of a bag of black pepper on the person of Harris, just before bringing the man

LEGAL BAR ON AERO TRAVELS.

No Flyer to Leave Country Without Passports, is Government Edict.

Coming of the airplane into the passenger-carrying business has brought forth an unusual notice, received yesterday by Collector of Customs Elliott from L. S. Rowe, Assistant Secretary of the Treasury Department. Attention of all collectors was called to the fact that persons who leave this country by airplane must carry passports with them, except those going to Canada.

The attention of the department was called to the fact that army and navy officers took flying trips from this country into other dominions without passports, and it was made plain that both army or navy men have to have such documents from now on.

Mr. Clark took the stand for a few minutes yesterday and was questioned by Deputy District Attorney Fricks regarding the passage through his hands of an envelope containing soil from Artesia, which he gave to the chemist.

here from Denver. He described in detail measurements of footprints found near the scene of the crime. The case of the prosecution will probably be finished today or tomorrow by Deputy District Attorney Fricks. Guy Edgins, attorney for the defense, will probably take two or three days in presenting a defense, it was said.

Mr. Clark took the stand for a few minutes yesterday and was questioned by Deputy District Attorney Fricks regarding the passage through his hands of an envelope containing soil from Artesia, which he gave to the chemist.

FLEET SPEEDS A RECORD.

Pacific Armada to Arrive off Coronado Islands Tomorrow Morning.

(Continued from First Page.) during the fleet welcoming celebration, and the subject was referred to the Finance Committee for its attention.

W. D. Woolwine, chairman of the Finance Committee, yesterday issued another strong plea to public-spirited citizens to make early and generous subscriptions to the fleet fund. Only about \$40,000 of the necessary \$100,000 has been raised and it is imperative that the rest be secured immediately. Mr. Woolwine points out that the community at large should bear the cost of the entertainment without hesitation.

FLEET DUE WEDNESDAY. SAN DIEGO, Aug. 4.—The new Pacific Fleet will become part of the fleet at dawn Wednesday, when it will anchor off the Coronado Islands, just outside San Diego harbor. Admiral Rodman today notified the local authorities of the arrival time, which is twenty-four hours ahead of any schedule previously announced.

San Diego Harbor will not be entered until Thursday morning, as had been planned. Then Secretary of the Navy Daniels and an official party will go to the anchorage of the fleet aboard the destroyer Chauncey to officially welcome the vessels and lead them into the harbor. Hundreds of persons from interior points were arriving here today to witness the arrival of the fleet.

Gov. Octaviano Larrazola of New Mexico was in San Diego to officially welcome the fleet. He, Stephens and his official party were scheduled to arrive Wednesday night.

Naval diplomacy is being taxed to its utmost to care for the official welcoming party. Already more than 125 persons have been named to accompany Secretary Daniels on the destroyer Chauncey, more than a comfortable capacity crowd for the vessel. It was considered certain tonight two destroyers would have to be used, and naval officers were concerned with splitting the party without causing controversy.

San Diego today was completing its plans for the entertainment of the fleet officers and their families. Particular attention was being paid to the comfort and pleasure of enlisted men. Today many truckloads of oranges were brought to the city. Every man in the fleet is to receive at least five oranges.

Admiral Rodman, commanding the Pacific Fleet, notified Rear-Admiral J. L. Jayne, senior officer of the port, by radio at noon today, that the fleet will anchor several miles east of the Coronado Islands at 6 a. m. Wednesday. The announcement was made.

They motored out here and are taking all the trips in Southern California before going on to Santa Barbara, Del Monte and San Francisco. They are to be here the remainder of the summer.

Mrs. Robert K. Gaston and her two children, Gertrude and Sallie Gaston, sister of Mrs. Gaston's mother, Mrs. W. H. Flippin, of Dallas, Tex., are spending the summer in Southern California. They have just returned from a trip to the east, where they have been visiting at Santa Barbara, having taken a cottage at Miramar.

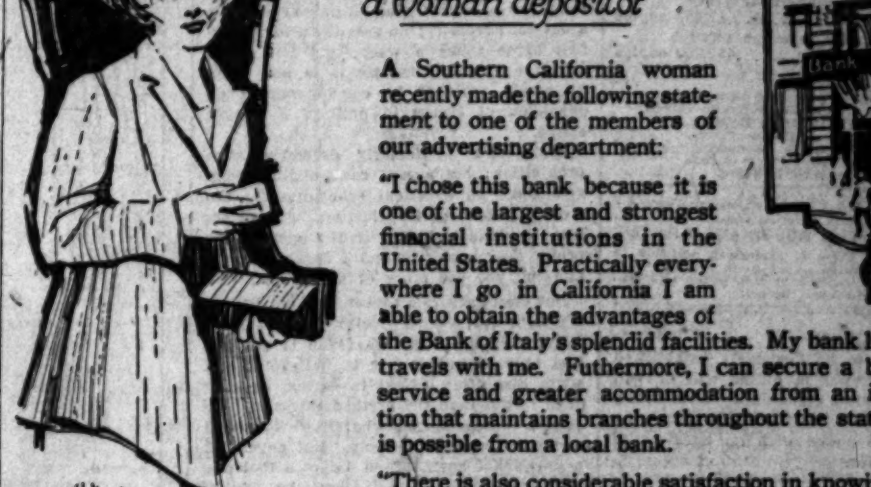

Mrs. J. W. Bradshaw of Oberlin, O., is visiting her son, Charles Porter Bradshaw, at 1815 Beachwood drive, Hollywood.

Mrs. W. E. Buehler of Salt Lake, who has been visiting here and at the Hotel Belvedere, Santa Barbara, has gone to Coronado, where she has taken a cottage. Her mother, Mrs. John S. Hooper, arrived from Salt Lake yesterday to join her for the rest of the summer.

TO COVER BOND SALES. City Treasurer Hurrell reported to the Council yesterday, that he has received \$73,000 from the Security Trust and Savings Bank to cover the purchase of 1914 municipal power bonds recently ordered sold by the Council. The Council also adopted a resolution authorizing the purchase of \$73,000 bonds of this same issue.

"Why I chose the Bank of Italy"

By a woman depositor

A Southern California woman recently made the following statement to one of the members of our advertising department: "I chose this bank because it is one of the largest and strongest financial institutions in the United States. Practically everywhere I go in California I am able to obtain the advantages of the Bank of Italy's splendid facilities. My bank literally travels with me. Furthermore, I can secure a broader service and greater accommodation from an institution that maintains branches throughout the state than is possible from a local bank."

"There is also considerable satisfaction in knowing that one is dealing with a hundred million dollar institution."

WARNING ISSUED TO MOTOR-BOAT OWNERS. SAFETY RULES PUBLISHED TO INSURE CROWD'S SAFETY IN VISITING FLEET.

In order to avoid possible wrecks, collisions and other dangers to persons during the visit of the Pacific Fleet, Collector of Customs Elliott yesterday drew special attention of all motor-boat owners and operators in Southern California waters to the United States law covering the operation of motor boats. Particular reference is made to the handling of passengers from landings on the coast to vessels of the fleet.

The warning is as follows: "All boats carrying passengers to the fleet must be in charge of licensed operators. Each boat must have a life-preserver for every person on board, including members of the crew. All life preservers must be easily accessible. Allen-owned vessels are prohibited from carrying passengers for hire. Vessels must have seating accommodations for all passengers. Gangways and landing floats must not be overloaded. Each boat must be equipped with means for extinguishing burning gasoline, have an efficient whistle, and must have on board at least two copies of the pilot rules. Each motor boat more than twenty-six feet in length must also be equipped with bell and fog horn. Operators must strictly observe all signals. All boats operated at night must display appropriate running lights. Boats at anchor must display anchor lights."

"OLD CROWS" GONE; POLICE ARE STIRRED. THREE THEFTS IN A ROW CAUSE JUDGE TO ASK FOR AN INVESTIGATION.

Three thefts of bottles of whiskey from a lot that was in the custody of police department and court are considered so serious by Police Judge Crawford that he yesterday sent to the Police Commission a long communication thereon, giving a full account of the case.

"It feels that it is my duty to call the attention of your honorable body to this matter, that there may be a speedy investigation by your board of the same."

Police Judge Crawford states that on May 12, George Phillips was arrested at the harbor, charged with having in his possession liquor in violation of the law, and that three days later, bottles of Old Crow whiskey were taken from him by the officers. He was tried before a jury and found not guilty. He demanded the return of the whiskey, but as his ownership had not been proved, it was held by the court.

At the time of the trial twenty-five bottles of the liquor were introduced as evidence, one bottle having disappeared after its introduction. On June 19 Judge Crawford discovered that the "lost" bottle had been placed in a supposed secret safe in the warehouse where two more were stolen. Now Mr. Phillips has an action pending against the court to recover the value of the twenty-five bottles of Old Crow.

ASKS VOTE RECOUNT. Long Beach Resident Alleges Bonds Illegally Besten.

Charles H. Stanley, a taxpayer of Long Beach, asks for a recount of the votes cast at the special municipal election held in that city July 1 on the proposition to vote bonds for the erection of a public assembly building and a city hall. The bonds, \$50,000 for the public assembly building and \$400,000 for the city hall, failed to carry.

Mr. Stanley alleges that if illegal votes are cast out, it will be found the bonds did carry. The defendants are the city of Long Beach, Mayor Laseby and the commissioners.

Beautiful Women of Society. during the past seventy years have relied upon it for their distinguished appearance. The soft, refined, pearly white complexion it renders instantly, is always the source of flattering comment.

Dr. J. C. Williams

In Use For Over Thirty Years

CASTORIA

Just Once! Try Dodson's Liver Tone! Take No Calomel! Listen To Me!

If bilious, constipated, headachy or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, causes it to break up. This is when you feel that awful nausea and cramping. If you are "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee the one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep the entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

IN the Rotogravure Section of the Sunday Times you will find reflected every phase of life.

AN MAY CAUSE LEAGUE FIGHT.

President Johnson declined to comment on the charge of Col. Huston that he was interested in the Cleveland club.

In a statement asserting that "to permit the transfer of the player to one of the contending teams for the championship would lower the standard of baseball and place a premium on flagrant violation of club discipline," President Johnson gave his side of the case.

After detailing the manner in which Mays left the Boston club in Chicago, during the progress of a game, Mr. Johnson said that the Chicago, Cleveland and New York clubs immediately opened negotiations to obtain the player. This, he said, prompted a vigorous protest from Washington, St. Louis and Detroit clubs, and later from Philadelphia.

James Dunn, owner of the Cleveland club, immediately withdrew his efforts to obtain Mays as soon as the argument was presented to him that for a pennant contender to obtain the services of the player would "lower the standard of baseball."

On the following day, he said, he sent the following message to Col. Ruppert of the Yankees:

"Please explain why Boston club has neglected to suspend Mays. This must be done immediately or American League will be forced to take action."

On the following day, he said, he sent the following message to Col. Ruppert of the Yankees:

"Mays left Boston club without permission and has made a declaration he will not continue in its service. This is a flagrant breach of discipline and should not go unpunished. Six clubs have protested that the player should not be permitted to go elsewhere. To allow this incident to go unchallenged will work endless harm to the American League. Clubs should stand together and refuse to negotiate for this man."

"I heard nothing more from Col. Ruppert, and naturally supposed he had dropped all negotiations for Mays," Mr. Johnson's statement said. "When the announcement was made in the newspapers of July 31 that Mays had been transferred to the New York club I was astonished. Immediately I suspended Mays indefinitely and wired both the New York and Boston clubs to that effect."

Mr. Johnson also took up the question of instituting a permanent rule against the charge of Mays, which he said he would not attend the meeting.

Mr. Johnson also took up the question of instituting a permanent rule against the charge of Mays, which he said he would not attend the meeting.

TO STRENGTHEN ANGELS.

Johnny Powers Sends Jim Morley East for Three New Players.

BY HARRY A. WILLIAMS.

Although the Angel athletes were idle yesterday, not so with the manager and demagogue, James F. Morley, who was observed beginning the extra collar and draping four suits of clothes from the hangers in a steamer trunk.

For Jim is going on a long voyage. Do not infer from this that Jim has only four suits. He is possessed of five. The fifth one he kept out to wear. It would not look well to go on a long voyage with all five of them in the trunk, although the traveling might be more comfortable in that condition after he strikes the Middle West.

Despite the steamer trunk, the long voyage on which Morley is about to embark is not a sea voyage. Steamer trunks can travel by land as well as by sea. They are amphibious. They have passed through the Panama Canal and climbed over the Rocky Mountains.

Jim is taking the steamer trunk because it looks more stylish and won't put wrinkles in the four suits which he isn't wearing.

TO STAY PUT.

Mr. Morley is departing hence under orders from President Powers who has taken steps to keep the Los Angeles club in the pennant race where he has placed it. True, the Angels are out in front, but Powers wants them to stay put. His instructions to Morley are to save time but not money. Morley's destination is Chicago.

While not necessarily doubtful of the ability of the Los Angeles team as now constituted to keep out in front, but in order to be prepared for all eventualities, he has given Morley carte blanche in the matter of purchasing new players. Those sought are an infielder, an outfielder and a right-handed pitcher. Three such players have been sought for some time. However, negotiations by wire failed. So it was decided to put Morley on the spot with spot cash at his command.

TIP THE WINK.

He will leave for Chicago tomorrow morning. The Cubs and New York Giants will be playing in that city when he arrives. He believes that Fred Mitchell, Bill Killefer or McGraw may be able to tip him off to something good. Finding there he will seek something from the Red Sox or White Sox, who will open soon after his arrival. He figures that his personal acquaintance with Gleason and Barrows may help. Unless he secures the necessary talent from one of these clubs, Morley probably will remain in Chicago until the Phillies come there. Manager Cravath has been doing some tall scouting for his own club, and having looked over a lot of material, may be able to give his employer a line on something good.

In case Morley can't get what he wants in Chicago, he will make his headquarters there, and work out to other major league cities.

WANTS BEST.

"We have no particular men in view," said Morley, "and even if we did it is not certain that I would select them—especially not if I saw something that looked better. However, you can rest assured that the Angels will be bolstered if money will turn the trick."

"Seem to be afraid of us," remarked Lou Anger of the Tigers, when he learned of the Powers' plans, and it sounded suspiciously like a threat. Fatty Arbuckle, however, even dared to make a noise when he heard it. That's how excited Mr. Arbuckle got.

Open amazement, not to say alarm, was manifested among adherents of the Yankees team when the Tigers dropped five out of seven to the Oaks. One would think that the followers of the different clubs would become accustomed to these joits. They have been happening for a good many seasons, and especially since Salt Lake entered the league.

There is no circuit in the country with the same complex climatic conditions, nor with jumps of such magnitude and mileage. And by the same token, the Coast League, as a rule, stages the most erratic pennant race in the country.

Formerly, from Portland to Los Angeles was the longest jump in baseball, except from Los Angeles to Portland. Then the league expanded northward and absorbed Seattle, adding quite a span to the circuit.

A LONG TRIP.

No club can make the trip from Seattle to Los Angeles, or vice versa, and be at its best. As a rule it will play shoddy ball for the first couple of games and the loss of two games at the start may mean the loss of the series.

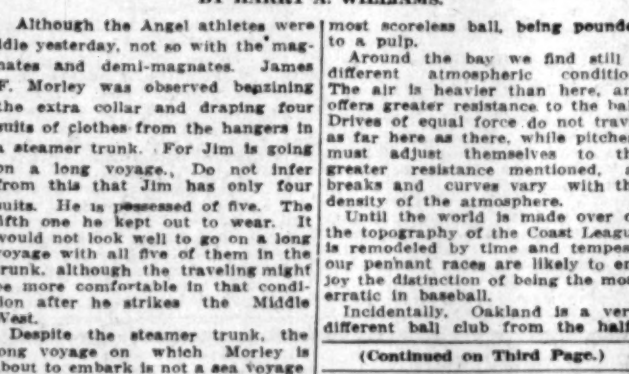

Then there is the case of Salt Lake, with its high altitude and rarefied atmosphere. As a rule, a visiting manager is satisfied to take two out of six games there, while an even break is heralded as a triumph. The best ball team in the world could not be insured against a slaughter in that town. Not only that, but a week there generally wrecks a visiting pitching staff, or at least throws it out of gear for anywhere from seven to fourteen days.

COLD DID IT.

San Francisco and Oakland are cold towns compared with Los Angeles and Sacramento, and the change is likely to affect the athletes, especially pitchers. Some attributed Vernon's setback in Oakland to overconfidence. According to word received from there, things were too chilly for the Tiger twirlers. This seems to be about the only explanation of pitchers, who a week before had pitched at

SUMMER ON THE ATLANTIC.

Dramatic Star at Her Island Home.

Norma Talmadge, Who is featured in "Way of a Woman" this week at Tally's Broadway.

most scoreless ball, being pounded to a pulp.

Around this bay we find still a different atmospheric condition. The air is heavier than here, and offers greater resistance to the ball. Drives of equal force do not travel as far here as there, while pitchers must adjust themselves to the greater resistance mentioned, as breaks and curves vary with the density of the atmosphere.

Until the world is made over or the topography of the Coast League is remodeled by time and tempest, our pennant races are likely to enjoy the distinction of being the most erratic in baseball.

Incidentally, Oakland is a very different ball club from the Middle West.

THE COMET IN RARE FORM

Our Maury Creates Stir at the Big Newport Tennis Tourney.

Maury, who is featured in "Way of a Woman" this week at Tally's Broadway.

NEWPORT (R. I.) Aug. 4.—With only the Australian Davis cup team missing the third annual invitation tournament of the Newport Casino Lawn Tennis Association began here this morning on the historic turf courts of the Casino. Sixty players were in the draw, among them the very greatest players this country has produced. At the end of a long day of play this total had been reduced to thirty-seven, all the favorites coming through.

Craig Biddle, chairman of the Tournament Committee, said today that he hoped to have Norman Brooks, Gerald Patterson, Randolph Lyett and R. V. Thomas, the "Aussies," on the courts Wednesday. Latest reports had them still teasing about on the Atlantic.

CAUSED STIR.

Late in the afternoon there was a stir on the clubhouse veranda as a young man, red of hair, freckled and ruddy of face, and with an infectious boyish smile, sauntered on the court and began to bat the ball around with young Joseph Harriman.

"Why, he hasn't changed a bit; I'll bet he can play as well as ever," said one of the onlookers, and that seemed to express the prevailing opinion of the spectators, as they watched Maurice Evans McLaughlin, the great California comet, for it was indeed he.

McLaughlin romped through his match with Harriman by a score of 6-1, 6-0, 6-1 in the first round. McLaughlin's best stroke and most effective point-winning shot was his forehand drive through deep court. The ball carried a world of top spin so that "Red Mac" could lean all his weight behind the stroke and still keep the ball within the court confines. He fairly burned up the court with forehand drives, the ball traveling low over the net and topping into Harriman's court fast.

Johnson played a peculiar match against J. W. Foster, a local star, winning at 6-3, 6-2, 7-5. The little clay court champion did not look nearly as formidable as he did some three weeks ago in Chicago, and later at Longwood, when he conquered the California champion was plainly willing to take matters easy and gradually work up his tremendous hitting game.

Only occasionally today did he let loose with the full weight of his body behind his famous forehand drive, and his overhead volleying was also lacking in his customary decisiveness.

Tilden tore through young Mortimer at 6-0, 6-1, 6-1.

At home, Salt Lake was proven almost unbeatable and the games won there have put them close to the Tigers. On the road the Bees are inclined to be erratic, as during their last visit here, when they played miserable ball against the Tigers in the first two games and took the next five. Despite their in-and-outness they won a majority of games on their last trip away from home.

Herr's club may encounter stiff opposition against the newly awakened Sacramento team. If the Bees don't get by Sacramento in good shape it will be a hard struggle for them to reach the top unless the Angels and Tigers suffer severe reverses.

Trainer Finley states that Vic Aldridge will be in shape to start against the Oaks this week. Crandall, Brown, Fetter and Fertica are Killefer's other bats.

CURLEY WOULD MATCH MEEHAN AND DEMPSEY.

(BY A. F. NIGBY WIRE.)

PORTLAND (Or.) Aug. 4.—Jack Curley, New York promoter, wrote a letter today from here to Willie Meehan, San Francisco heavyweight, giving Meehan all the details of a proposed twelve round heavyweight championship contest between Dempsey and Meehan to take place in Newark, N. J., in December. Curley says that while in Chicago he gained the consent of Dempsey's manager, Jack Kearns, to go through with the contest.

In his letter Curley told Meehan that he would be in San Francisco within a few days to discuss the situation with him.

MCGOORTY TO MEET ENGLISH CHAMPION.

(BY OAKLAND AND ASSOCIATED PRESS.)

LONDON, Aug. 4.—A twenty round fight between Joe Beckett, the English heavyweight champion, and Eddie McGoorty of Oshkosh, Wis., has been arranged for September 2 in this city. The men will battle for a purse of 2000 pounds and a side bet of 1000 pounds.

The bout between Beckett and McGoorty, the French heavyweight champion, has been postponed until November.

HANDICAP WAS TOO MUCH FOR PACKARD.

Too much handicap was the undoing of Dr. L. M. Packard's final score at the L. A. R. & R. Club's regular monthly pistol match held last Sunday at the Glendale range. S. H. Hart and W. A. Brouse were the successful contestants for first

and second prizes, respectively. The course of fire was five sixties and thirty shots for record at fifty yards on target "L." First prize 200, second prize 200 rounds of pistol ammunition.

TO HAVE A HECTIC WEEK OF BASEBALL.

This figure to be a hectic week in the Coast League race.

Oakland, fresh from a sensational series against Vernon, in which the Tigers were downed five out of seven, will open with the league-leading Angels at Washington Park this afternoon.

Meantime, the Tigers will be battling the Seals in San Francisco, with Salt Lake opening its road trip at Sacramento.

The Seals fared poorly in Sacramento last week, but generally do better on their home grounds.

At home, Salt Lake was proven almost unbeatable and the games won there have put them close to the Tigers. On the road the Bees are inclined to be erratic, as during their last visit here, when they played miserable ball against the Tigers in the first two games and took the next five. Despite their in-and-outness they won a majority of games on their last trip away from home.

Herr's club may encounter stiff opposition against the newly awakened Sacramento team. If the Bees don't get by Sacramento in good shape it will be a hard struggle for them to reach the top unless the Angels and Tigers suffer severe reverses.

Trainer Finley states that Vic Aldridge will be in shape to start against the Oaks this week. Crandall, Brown, Fetter and Fertica are Killefer's other bats.

PLACE HIGH VALUE ON PEACH CROPS.

(BY A. P. NIGHT WIRE.)

MODESTO, Aug. 4.—Sult

filed in the Superior Court

here late this afternoon by

the Pratt-Lowe Preserving

Company against Dr. C. W.

Evans, a prominent Modesto

physician, asks \$134,000 dam-

ages, the plaintiff charging

that the defendant has re-

gulated his contract to sell

them all of the peaches grown

on lands owned near Modesto

during the seasons of 1919 to

1928 at prices ranging from

\$12.50 to \$25 a ton.

A thousand-ton crop will

be produced on the lands this

season, it is estimated.

Evans recently sold the

property on which the peaches

are grown.

HOW KOREANS BROKE LOOSE.

New Oriental Upheaval is Shock to Japan.

Career of Dr. Rhee, President, Reads Like Romance.

Message Smuggled Abroad in Head of a Doll.

BY FREDERIC J. HASKIN.

(SPECIAL CORRESPONDENCE.)

WASHINGTON, July 30.—After

seven years of imprisonment and

torture, Dr. Syngman Rhee, repre-

sentative in Washington of the Ko-

rean revolutionists, has been elected

President of the Korean provisional

republic.

Of all the political upheavals

which have shaken the world in the

last four years, there has been none

more dramatic than that which made

Dr. Rhee President of the new Korean

republic. For the Koreans have

fought their revolution without any

weapons other than their voices and

the courage to die. They had to pre-

pare the proclamation of their new re-

public in secret, and when they

could not even cable the chief ex-

ecutive news of his election. The

message was smuggled out of the

country by a foreigner and brought

across the ocean concealed in the

head of a doll.

When the revolution has been

without arms or violence on the

part of the Koreans, they claim that

\$9,000 of them have been arrested,

and 10,000 killed by the Japanese.

When crowds of Koreans gather

in the streets singing and shouting

"Long live Korea," they are

rushed to the scene to break up

the meeting. The revolutionists are

dispersed by bayonet attacks, and

some are always killed or wounded.

On next day there is another mass

meeting of Koreans proclaiming their

independence.

RECONSTRUCTION IN ENGLAND IS VITAL.

TRANSITION PERIOD IS FULL OF UNREST, WHICH TAKES MANY FORMS.

(A. P. FOREIGN CORRESPONDENCE.)

LONDON, July 1.—The word

"revolution," which foreign ob-

servers sometimes apply to the present

transitional stage of British indus-

trial and political life, is not popular

here. Revolution savors of bayonets

and bloodshed and the British peo-

ple do not foresee nor predict that.

Reconstruction is the current term,

even though the general result of

what is being done and agitated for

may, in the opinion of other peoples,

amount to an industrial revolution.

A brief summary of the changes

under way should show that recon-

struction in Great Britain comes

roughly under two heads, the offi-

cial and the unofficial. The official

projects which the government is

grappling with are these:

Nationalization of the two great

basic industries, coal mining and

the railways.

Government support for all per-

sons out of work through work con-

ditions.

Schemes for government house

building for workers and land for

the demobilized soldiers.

MARSHUTZ GLASSES
FIT THE EYES

Outdoor Glasses

For motoring, golf, at the seaside, for all outdoor life your eyes should have protection from the glare of the sun's rays. Highly-colored glasses shut out even the beneficial light rays, thus putting an added burden on the eyes, to say nothing of their being over-conspicuous.

We highly recommend Sir William Crookes lenses which let through practically all the daylight and yet remove the menacing rays, and are so delicately tinted that they do not dim natural colors.

Any prescription you now wear or need we can grind for you in Sir William Crookes Glass.
